Bachelor's in Computer Application <i>DAVV University, Indore</i>	07/2018 – 07/2021

SKILLS

• JavaScript	• Node.js	• React.js	• REST APIs
• Express.js	• SQL	• MongoDB	• Tailwind CSS
• Git	• Agile Methodologies	• Debugging	• Startup Adaptability

PROFESSIONAL EXPERIENCE

Junior Software Developer (MERN Stack) <i>IndiaNIC Infotech Pvt.</i>	04/2024 – present Ahmedabad, India
<ul style="list-style-type: none">Collaborated with cross-functional teams to design and develop scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).Deployed and managed applications on AWS, leveraging services like EC2, S3, and Lambda to ensure high availability and performance.	
Software Developer Trainee (MERN Stack) <i>Codiatic Technologies</i>	10/2023 – 04/2024 Indore, India
<ul style="list-style-type: none">Collaborated with team to develop complex web applications using the MERN stack (MongoDB, Express.js, React, Node.js).	

PROJECTS

Estimation Portal

Role: Backend Developer

Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Designed and developed robust backend services, including RESTful APIs and database schemas, to support key functionalities.
- Implemented business logic to ensure seamless integration and scalability of the portal.
- Collaborated with the frontend team to ensure smooth data flow and performance optimization.

Betting App

Role: Full Stack Developer

Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed backend systems for a betting application enabling users to play and earn rewards from multiple prize pools.
- Implemented secure payment gateways to manage transactions efficiently and ensure user data protection.
- Designed scalable APIs to support real-time game functionalities and prize distribution.
- Ensured seamless integration between backend services and the frontend interface for an optimal user experience.
